CONFLICTS OF INTEREST

A conflict of interest occurs when an individual's objectivity is potentially compromised by a desire for financial gain, prominence, professional advancement or a successful outcome. The *JCGG* Editors strive to ensure that what is published in the Journal is as balanced, objective and evidence-based as possible. Since it can be difficult to distinguish between an actual conflict of interest and a perceived conflict of interest, the Journal requires authors to disclose all and any potential conflicts of interest.

Did you or your affiliated institution receive any financial support or service from a third party related to the subject matter or materials discussed in the manuscript? No Yes

Is there any relevant conflict of interest? No Yes

Is there any condition/circumstance that may present a potential conflict of interest?..... No Yes
